## PT1 Regular Dies Trial.

### a) Copper. Non-Proof R8, Unique? {J-274}, {P-323}.

The only known example is struck with regular die production dies and is lightly circulated. It has the same thickness of a regular copper-nickel cent. Dark toned copper-nickel pieces may be confused with this and other copper die trials of the era.

- 1) Parson's collection (acquired 3/69); Kagin's "ANA"  
8/77:2165; Kagin's "Metropolitan Washington" 7/79:831;  
Kagin's 1/81:931.
