<https://coincollectorss.com/>

Jack D. Young

Counterfeits and fake slabs shipped from China; large product offering captured in this document with images I have archived as available; many use multiple cert numbers on the labels. The website uses images of genuine coins and clips from real coin shop sites in its listings.

Not on this website but available from a German eBay seller this 1833 half dollar:

I intend to use this guide as I continue to look for more hitting the internet selling venues.

Best, Jack.
